

**Familial and  
international in one.**

Celine Villiger

Exciting challenges await on the path to realizing our vision. We are therefore seeking

## Scientific Education Manager m/w/d

Root, Switzerland

### Your tasks

As Scientific Education Manager, you will implement educational activities and collaborations worldwide and train education peers via different elements. You develop content-related and didactic concepts, define and implement global trainings in line with the marketing goals, and continuously develop them. You will coordinate the corresponding projects with focus on product knowledge and therapeutic application. You maintain contacts, attend international events and investigate topics and trends for further scientific development.

### Your qualifications

You are a graduated dentist with experience in tissue regeneration, or you have a degree in natural sciences (incl. medical environment, at least Bachelor, Master preferred). At least you have 2 years of professional experience in marketing and education in the pharmaceutical or medical device industry. You are familiar with the use and ideally with administration of web-based learning platforms and with didactic principles and structures of knowledge transfer. Preferably, your native language is English and you speak German fluently.

**Geistlich Pharma is a family-run Swiss company and a longstanding global leader in regenerative dentistry.** We have a long tradition of pioneering attitudes that place the focus on employees. These employees are dedicated to the spirit that drives our company to excel: a passion for regeneration. This is the origin of our innovative medical products that reconstruct bones, cartilage and soft tissue. Our motivated team looks forward to working with you in a modern, dynamic environment with international flair.

We look forward to receiving your completed electronic application at: [recruiting@geistlich.ch](mailto:recruiting@geistlich.ch)
